Cookie usage

General

Cookies are small text files that are saved on your computer when an Online Offer is accessed. In case you access this Online Offer another time, your browser sends the cookies' content back to the respective seller and, thus, allows the re-identification of the terminal device. Reading the cookies allows us to design our Online Offers optimally for you and makes it easier for you to use them.

Deactivation and deletion of cookies

When visiting our internet pages, you will be asked in a cookie layer pop up whether you wish to allow the cookies which are set on our page or if you wish to deactivate them in the settings.

In case you decide to block cookies, an opt out cookie is set in your browser. This cookie exclusively serves the purpose of assigning your objection. Deactivating cookies may disable individual functions of our internet pages. Please note that an opt out cookie may, for technical reasons, only be set with the actual browser. In case you delete cookies or use a different browser or a different terminal device, you must opt out again.

The preference setting does not apply to cookies that are set during your visit on third party internet pages by other providers.

Your browser allows you to delete any cookies at all times. To do so, please consult your browser's help functions. This might, however, lead to individual functions no longer being available.

In addition, you could manage and deactivate the use of third party cookies on the following web page:

<http://www.youronlinechoices.com/uk/your-ad-choices>.

As we do not operate this website, we are not responsible and we are unable to influence the content and availability.

Overview of cookies used by us

In this section, please find an overview of the cookies we use.

- Cookies that store data to ensure a trouble-free playback of video or audio content.

Analytical cookies

We use analytical cookies to record the usage behavior (e.g. ad banners clicked on, search queries put in) of our users and to evaluate it statistically.

Conversion cookies

Our conversion tracking partners set a cookie on your computer ("conversion cookie") in case you entered our website through an advertisement of the respective partner. These cookies generally lose their validity after 30 days. In case the cookie has not yet expired, we and the respective conversion tracking partner can see that a particular user clicked the ad and was forwarded to our page. Information gathered through the conversion cookie is used to create conversion statistics and to determine the total number of users who clicked the respective ad and were referred to a page provided with a conversion tracking tag.

Web analysis

We need statistical information about the usage of our Online Offers to design them to be more user-friendly, to perform range measurements and market research.

For this purpose, we use the web analysis tools described in this section.

The usage profiles created by these tools using [analysis cookies](#) or by evaluating [log files](#) are not brought together with personal data. The tools either do not use user IP addresses at all or shorten them immediately after gathering them.

The tool sellers process data only as processors subject to our directives and not for their own purposes.

In the following please find information on each tool seller and how you are able to object to the collection and processing of data by the tool.

Be advised that with regard to tools which use opt out cookies, the opt out function is related to that individual device or browser. In case you use several terminal devices or browsers you must opt out on every device and with every browser used.

Beyond this, you can avoid the forming of usage profiles by generally deactivating cookie usage. Please refer to the section [Deactivate and delete cookies](#).
